

## Bilingual Parent/Community Organizer – Kane County Illinois

### Overview

Join us in building a grassroots movement of Black, Brown, and immigrant parent leaders working for economic, racial, and social justice for families. Community Organizing and Family Issues (COFI) builds the leadership, power, and voice of parents in historically marginalized communities to fight for equity on behalf of their children and families. At COFI, Parent/Community Organizers work with parent leaders (mostly mothers and grandmothers) in communities across Illinois on leadership development, local organizing campaigns, and larger public policy initiatives aimed at making policy and systems more equitable and responsive to the needs of all families.

COFI is looking for an experienced bilingual (English/Spanish) Parent/Community Organizer to work in the predominantly immigrant communities of Kane County – including Aurora and Elgin. Candidates will be considered who want to learn and implement COFI's organizing model, *The COFI Way*, and who have at least one year of organizing experience.

### Who We Are

COFI is an organizing center that elevates the voices of parents living in challenged communities of color through:

- **Local Organizing:** COFI trains and organizes neighborhood and school-based parent teams to take action on issues they identify as important to improving life outcomes for children.
- **Policy and Systems Change Organizing:** COFI unites parent leaders across neighborhoods, race, and ethnicity to impact policy changes of priority benefit to children and families.
- **Sharing the Learning:** COFI provides training and resources to parent-led organizations around the country.

COFI's innovative model of leadership development and community organizing, *The COFI Way*, emphasizes the interconnection between personal struggles and broader community issues and builds capacity for parent leaders to address these issues through collective action. Through COFI's intensive and systematic leadership development and organizing process, parents develop skills, confidence, and the organized power to win improvements in schools, communities, and broader public policies.

COFI's current policy campaign issue areas include:

- **Early Learning:** addressing equity and access barriers to early intervention, childcare, and quality preschool for low-income children and families.
- **Elementary Justice:** seeking to end punitive school discipline policies and the criminalization of youth of Color in public schools.
- **Health Equity:** working on access to mental health services and other health equity issues for children and families, including for immigrant families.
- **Stepping Out of Poverty:** working on utility debt reform, asset building, guaranteed basic income, reining in government fees and fines, food insecurity, and other issues facing families in poverty.
